EDUCATION

Ramaiah Institute of Technology

BE in Artificial Intelligence and Machine Learning- CGPA - 8.57/10.00

Dec 2021-Present

Bengaluru, Karnataka

EXPERT PU College,Mangalore

Department of Pre-University Education, Karnataka - Percentage - 98.00%

June 2019-Sept 2021

Mangalore, Karnataka

SDM English Medium School,Ujire

Karnataka Secondary Education Examination Board- Percentage - 95.2%

June 2011-May 2019

Ujire, Karnataka

COURSEWORK / SKILLS

- | | | | |
|--------------------------------|------------------------------------|-------------------------------------|------------------------|
| • Data Structures & Algorithms | • Machine Learning | • Database Management System (DBMS) | • Computer Networks |
| • Operating Systems | • Object Oriented Programming(OOP) | | • Software Engineering |

PROJECTS

Multicity Vehicle Routing Solution [↗](#) | Streamlit,OR Tools,Python,Folium,TollGuru API,BingMaps API

- Implemented and optimized multicity vehicle routing solution resulting in reduction in overall travel costs and carbon footprint
- Utilized advanced data structures and algorithms resulting in decrease in travel time across multiple cities.
- Integrated real-time traffic analysis data leading to improvement in route accuracy and time saving

NGO Investor Match(PaaS product) [↗](#) | NextJS,JavaScript,Tailwind,MongoDB,Python-PPTX

- Built a full-stack Next.js PaaS for NGOs to find investors using semantic search
- Integrated a SaaS tool with OpenAI and Python-PPTX to create dynamic pitch presentations
- Added a dashboard to track activities and connect NGOs with investors

Minimalistic Student portal for RIT [↗](#) | Flask,Rasa,MongoDB,PyMongo,BeatifulSoup,Selenium

- Developed a Minimalist student portal for RIT students with integrated Chatbot
- The portal utilizes data extraction using BeautifulSoup and auto logins using Selenium
- The chatbot is connected to Database and can be used to get relevant information about grades,attendance,events and timetables

Additional Projects |

- AI powered Finance Tool [↗](#)
- Assistive Device for Blind using VLM [↗](#)
- Interactive Character Recognition and Learning Tool for Kannada Language [↗](#)

TECHNICAL SKILLS

Languages: Python, JavaScript, C

Developer Tools: VS Code, Jupyter Notebook, Copilot

Technologies/Frameworks:NextJS, Bootstrap CSS, MongoDB, MySQL, TensorFlow, Flask, Rasa, NodeJS

Version Control:Git, Github

EXTRACURRICULAR

- Member, GDSC RIT
Part of RIT's GDSC. Participated and conducted various events in the college
- Member, CodeRIT
Is a part of coding club of RIT, Conducted monthly coding competition and was part of many events

ACHIEVEMENTS

- **Runner up** Graviton 2.0 conducted in PES University RR Campus
- **Top 3** Hashcode 12.0 conducted in PES University RR Campus
- **Finalists** in HackBangalore, KSP Datathon, CentuRITon 2022,Hack4Soc 2.0 and NMITHacks 2024 and many more

CERTIFICATIONS

- | | |
|---|--|
| • Intro to Frontend by Meta - Coursera | • Internship training -Oasis Infobytes |
| • Automate Boring stuff with Python - Udemy | • Introduction to NLP - Infosys |
